About CUAP E-Cell

The Entrepreneurship Cell of Central University of Andhra Pradesh (CUAP E-Cell) is a student-driven body dedicated to fostering a culture of innovation, enterprise, and problem-solving on campus. Established as a platform for aspiring entrepreneurs, CUAP E-Cell works to bridge the gap between academic learning and real-world entrepreneurial practice by organizing workshops, mentorship sessions, ideation challenges, and industry interactions.

Vision

To build a thriving campus ecosystem where every student is empowered to think entrepreneurially, take initiative, and translate innovative ideas into impactful ventures that contribute meaningfully to society and the economy.

Mission

- Cultivate an entrepreneurial mindset among students through structured programs and mentorship.
- Provide a collaborative platform connecting students, mentors, investors, and industry experts.
- Encourage interdisciplinary innovation by involving students from diverse academic backgrounds.
- Facilitate access to resources, networks, and opportunities that support early-stage venture building.

Objectives

- Organize regular events, competitions, and workshops centered on entrepreneurship and innovation.
- Represent Central University of Andhra Pradesh at national-level platforms such as NEC 2026.
- Build strong industry and alumni connections to support student ventures.
- Develop leadership, teamwork, and problem-solving skills among student members.
- Create a sustainable, student-led organizational structure for long-term impact.

Purpose of the Entrepreneurship Cell

CUAP E-Cell exists to serve as the nucleus of entrepreneurial activity within the university, nurturing ideas from conception to execution. By participating in national platforms such as the National Entrepreneurship Challenge (NEC) 2026, the Cell aims to benchmark its practices against the best student entrepreneurship bodies in the country, while building a strong, capable, and well-structured team ready to lead future initiatives.

Organizational Structure

The organizational structure of CUAP E-Cell is designed as a flat, collaborative hierarchy that ensures clarity of authority while promoting open communication across departments.

PRESIDENT Sumant Ghantewar

|

VICE PRESIDENT & CHIEF TECHNOLOGY OFFICER Avilash CJ

|

Chief Financial Officer **Nandu**	**Head of AI Engineering & Software Development** **S. Sanjay Kumar**
Head of Research, Data & Documentation **Jayanth Reddy Ragipindi**	**Head of Marketing, Branding & People Operations** **N Vamshi Krishna**
Head of Operations & Event Management **Sankepalli Nagatilak Datta**	**Head of Public Relations & Outreach** **Aditya Raj**
Head of Corporate Relations & Sponsorship **Shivraj**	

Distribution of Responsibilities

Responsibilities within CUAP E-Cell are distributed based on individual strengths, ensuring that each department operates with a clear mandate while maintaining strong cross-functional collaboration. The President provides overarching direction and final decision-making authority, supported directly by the Vice President & CTO, who coordinates technology initiatives and inter-departmental alignment. The seven department heads operate with functional autonomy in their respective domains finance, technology, research, marketing, operations, public relations, and corporate relations while reporting progress upward and collaborating laterally on shared initiatives. This structure ensures accountability at every level while enabling fast, effective decision-making and seamless teamwork across the organization.

Team Members

Sumant Ghantewar

Role: President & Strategy Lead

◈ Portfolio

Executive Leadership • Strategic Planning • Organizational Vision

⚙ Skills

- Leadership & Team Building
- Strategic Planning
- Decision Making
- Public Speaking
- Negotiation
- Networking
- Conflict Resolution
- Vision Setting

✓ Responsibilities

- Provide overall strategic direction to the E-Cell
- Represent CUAP E-Cell in external forums and at NEC 2026
- Oversee and coordinate all departments and heads
- Hold final decision-making authority on key initiatives
- Mentor department heads and resolve inter-team conflicts
- Ensure every activity aligns with the E-Cell's vision and mission

★ Reason for Assignment

Sumant was assigned the role of President owing to his demonstrated leadership ability, clarity of strategic thinking, and capacity to unify a diverse team toward a common goal. His prior experience in organizing large-scale initiatives, combined with strong decision-making under pressure and excellent stakeholder communication, makes him best suited to steer CUAP E-Cell through NEC 2026.

Avilash CJ

Role: Vice President & Chief Technology Officer (CTO)

◈ Portfolio

Executive Leadership • Technology • Digital Innovation

⚙ Skills

- Artificial Intelligence
- Full Stack Development
- React
- Node.js
- Python
- Workflow Automation (n8n)
- API Integration
- Database Management
- UI/UX
- Prompt Engineering
- Cloud Deployment
- Digital Infrastructure
- Project Management

✓ Responsibilities

- Assist the President in strategic and operational matters
- Coordinate all departments to ensure cross-functional alignment
- Lead technology initiatives for the E-Cell
- Develop and maintain the official website
- Build AI-driven solutions to support E-Cell operations
- Automate internal workflows for efficiency
- Develop dashboards and registration portals
- Oversee database management and cybersecurity
- Drive digital innovation across all verticals

★ Reason for Assignment

Avilash was assigned as Vice President and CTO because of his all-round technical expertise, leadership capability, and hands-on software development experience. His knowledge of artificial intelligence, automation, and full-stack engineering, combined with his ability to coordinate across multiple departments, make him uniquely qualified to drive the technology backbone of the team.

M. Nandu

Role: Chief Financial Officer (CFO)

Head of Finance & Investment

◈ Portfolio

Finance & Investment • Corporate Accounting • Financial Strategy

⚙ Skills

- Financial Accounting
- Corporate Accounting
- Financial Management
- Financial Statements
- Ratio Analysis
- MS Excel
- Financial Modelling
- Company Valuation

✓ Responsibilities

- Plan and manage the overall budget of the team
- Oversee sponsorship-related finances
- Prepare accurate financial reports for submissions
- Conduct investment analysis for proposed initiatives
- Support startup valuation exercises for the task

★ Reason for Assignment

Nandu brings a strong academic and practical background in finance, accounting, and valuation. His command over financial modelling and ratio analysis ensures that all monetary decisions of the team are backed by sound financial reasoning, making him the ideal choice for the CFO role.

S. Sanjay Kumar

Role: Head of AI Research & Machine Learning

◈ Portfolio

Artificial Intelligence • Research & Innovation • Machine Learning

⚙ Skills

- Research
- Python
- Machine Learning
- Artificial Intelligence
- Problem-Solving
- Communication

✓ Responsibilities

- D Conduct technical research for AI/ML-driven E-Cell initiatives
- Build and test Python-based AI/ML models and prototypes
- Identify practical applications of AI for entrepreneurship and team operations
- Solve technical problems using analytical and data-driven approaches
- Communicate findings clearly and coordinate with the CTO and research team

★ Reason for Assignment

Sanjay was assigned this role because his combined strengths in research, Python, artificial intelligence, machine learning, problem-solving, and communication align directly with the team's AI-focused initiatives. His ability to investigate ideas, develop practical prototypes, and explain technical findings clearly makes him well suited to lead AI research and machine-learning projects.

Jayanth Reddy Ragipindi

Role: Head of Research, Data & Documentation

◈ Portfolio

Research & Analytics • Data Management • Documentation

⚙ Skills

- Market Research
- Data Analysis
- Report Writing
- Documentation Standards
- MS Excel
- Data Visualization
- Critical Thinking
- Survey Design

✓ Responsibilities

- Conduct market and competitor research for E-Cell initiatives
- Compile and maintain structured documentation of all activities
- Analyze data to support informed decision-making
- Prepare detailed reports for NEC 2026 submissions
- Track and record the progress of ongoing tasks

★ Reason for Assignment

Jayanth was assigned this role due to his strong analytical mindset, attention to detail, and academic grounding in research methods. His ability to translate raw data and findings into clear, well-structured documentation ensures the team's submissions are accurate and thorough.

N Vamshi Krishna

Role: Head of Marketing, Branding & People Operations

◈ Portfolio

Marketing • Branding • People Operations

⚙ Skills

- Social Media Marketing
- Content Creation
- Brand Strategy
- Graphic Design (Canva)
- People Management
- Communication
- Community Building
- Campaign Planning

✓ Responsibilities

- Build and maintain the brand identity of CUAP E-Cell
- Manage social media presence and content calendars
- Recruit, onboard, and manage volunteers
- Plan and execute marketing campaigns
- Oversee people operations and internal culture

★ Reason for Assignment

Vamshi's creative flair for branding combined with strong people-management skills makes him the natural choice to shape how CUAP E-Cell is perceived externally while keeping the internal team engaged and motivated.

Sankepalli Nagatilak Datta

Role: Head of Operations & Event Management

◈ Portfolio

Operations • Event Management • Logistics

⚙ Skills

- Event Planning
- Logistics Management
- Vendor Coordination
- Time Management
- Problem Solving
- Team Coordination
- Event Budgeting
- Risk Management

✓ Responsibilities

- Plan and execute all E-Cell events end-to-end
- Manage logistics, venues, and vendor coordination
- Coordinate volunteers and on-ground teams
- Ensure smooth day-to-day operations
- Anticipate and handle contingencies during events

★ Reason for Assignment

Datta's proven organizational skills and calm, structured approach to problem-solving make him well suited to manage the operational complexity of running events and day-to-day activities smoothly.

Aditya Raj

Role: Head of Public Relations & Outreach

◈ Portfolio

Public Relations • Outreach • Communication

⚙ Skills

- Public Speaking
- Networking
- Media Relations
- Email Communication
- Relationship Building
- Professional Writing
- Presentation Skills
- Cross-Team Coordination

✓ Responsibilities

- Build and nurture relationships with external stakeholders
- Manage press, media, and outreach communication
- Represent CUAP E-Cell at partner and inter-college events
- Liaise with NEC 2026 and E-Cell IIT Bombay coordinators
- Coordinate outreach messaging with the marketing team

★ Reason for Assignment

Aditya's excellent communication and interpersonal skills, along with his ease in networking with external stakeholders, make him the right fit to represent and promote CUAP E-Cell beyond the campus.

Shivraj

Role: Head of Corporate Relations & Sponsorship

◈ Portfolio

Corporate Relations • Sponsorship • Business Development

⚙ Skills

- Cold Outreach
- Negotiation
- Proposal Writing
- Relationship Management
- Business Development
- Persuasion
- CRM Tools
- Financial Acumen

✓ Responsibilities

- Identify and pursue potential sponsorship opportunities
- Draft and pitch sponsorship proposals to corporates
- Negotiate terms and finalize partnership agreements
- Maintain long-term relationships with sponsors
- Drive fundraising efforts alongside the finance team

★ Reason for Assignment

Shivraj's strong negotiation ability and natural aptitude for business development make him best placed to secure corporate partnerships and sponsorships that support the team's initiatives.

Work Allotment

The table below summarizes ownership and support responsibility across the major workstreams of CUAP E-Cell's NEC 2026 submission.

Task	Responsible	Supporting Team
Website Development	Avilash CJ	S. Sanjay Kumar
Financial Planning	Nandu	Sumant Ghantewar
Marketing	N Vamshi Krishna	Aditya Raj
Research	Jayanth Reddy Ragipindi	All Teams
AI Projects	S. Sanjay Kumar	Avilash CJ
Events	Sankepalli Nagatilak Datta	Marketing Team
Corporate Relations	Shivraj	Nandu
Public Relations	Aditya Raj	Marketing Team

Why These Roles Were Assigned

Role assignments within CUAP E-Cell were made through a deliberate and holistic evaluation process, ensuring that every member is placed where they can contribute most effectively. The following criteria guided the decision-making process:

Leadership: Ability to guide, motivate, and take ownership of outcomes within a team setting.

Technical Expertise: Demonstrated proficiency in domain-specific tools, technologies, and methods.

Communication Skills: Clarity in written and verbal communication, essential for internal coordination and external representation.

Academic Background: Relevant coursework and academic exposure aligned with the responsibilities of the role.

Practical Experience: Prior hands-on experience through projects, internships, or previous events.

Teamwork: Proven ability to collaborate effectively across functions and departments.

Innovation: Capacity to bring fresh, creative approaches to problem-solving.

Problem-Solving Ability: Aptitude for identifying issues quickly and implementing effective solutions.

By evaluating every member against these eight parameters, CUAP E-Cell ensured that its organizational structure is both merit-based and complementary placing individuals in positions where their strengths directly serve the team's collective goals for NEC 2026.

Know Your Team

As part of the “Know Your Team” outreach campaign, CUAP E-Cell will publish individual Instagram posts introducing each team-members.

Conclusion

Clearly defining roles within CUAP E-Cell has been a foundational step in preparing the team for NEC 2026 and beyond. By assigning responsibilities based on individual strengths leadership, technical expertise, communication, and practical experience the team ensures that every member operates with clarity of purpose and ownership over their respective domains.

A well-defined organizational structure directly improves accountability, as each member understands precisely what is expected of them and to whom they are answerable. It strengthens teamwork by eliminating ambiguity and overlap, allowing departments to collaborate efficiently rather than duplicate effort. Clear roles also create space for innovation, since members can focus deeply within their domain of expertise while still contributing ideas across functions.

Furthermore, structured role definition enhances overall efficiency, enabling faster decision-making and smoother execution of tasks under time constraints. It cultivates leadership at every level of the organization, as department heads take ownership of their verticals while contributing to the President's broader vision. Ultimately, this clarity of roles and responsibilities positions CUAP E-Cell to execute its entrepreneurship initiatives successfully, delivering a strong, cohesive, and well-prepared submission for NEC 2026.
